ABOUT US

In 1965, our firm started its sector with the production of spring mattresses, and since its founding, we have gained a new understanding of quality sleep. By bringing together years of experience and an innovative approach, today only mattress production and set products add value to living spaces.

PRIVATE LABEL COLLECTION

As a company, we are ready to create custom collections for your brand.

We can work on any product you request. We can customize our products for you. We are ready to work on your projects.

A person is lying on a bed, and the image shows the internal structure of a hybrid pocket spring mattress. The mattress is composed of a base of metal coils, with individual coils encased in fabric pockets. A layer of foam is visible on top of the coils. The person is lying on their side, and their head is resting on a pillow. The background is a simple room with a window and some furniture.

A person is shown assembling a bed frame in a warehouse setting. The frame is made of light-colored wood or metal and is being placed on a concrete floor. The person is wearing a dark jacket and is leaning over the frame, working on the headboard area. The background shows other similar frames and a large industrial space with high ceilings and concrete walls. The entire image is overlaid with a semi-transparent orange filter.
